Dear Hiring Manager,

Thank you for considering my application for this amazing opportunity. After reviewing your job description, it's clear that you want a candidate who is very familiar with the responsibilities of the role and can confidently perform them. Despite my lack of formal education, I believe my hands-on experience and real-world approach will benefit the company and job. I can guarantee my ability to learn quickly and adapt, as well as my desire to exceed any expectations.

I'm a software engineer with full stack development experience using JavaScript libraries and frameworks. I am very enthusiastic about creating and interacting with technology. I'm a positive person who enjoys being hands-on. I spent four years in the pharmaceutical industry before deciding it was time to pursue my interest in technology, where I can explore opportunities and share my enthusiasm for technology. I recently completed a rigorous 14-week coding boot camp that enhanced my understanding of full-stack software development. I'm excited to contribute my skills and knowledge to a dynamic and cooperative team. I'm excited to be joining a mission-driven company that prioritizes making a positive impact through the development of new technology and services.

I look forward to elaborating on how my specific skills and abilities will benefit your organization. Please contact me via phone or email to arrange a convenient meeting time.

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,
Christopher Alphonse
